ABOUT ME

I'm a full-stack developer and freelancer with a passion for solving complex problems and delivering innovative solutions. I thrive on coding challenges and enjoy exceeding expectations with every project. I value collaboration, learning from others, and sharing insights along the way. Previously, I led projects in a startup's R&D team, working alongside experienced professionals. As a freelancer, I bring the same dedication and pride to every client project, aiming to deliver high-quality work that stands out.
